***Allowable Subject Matter***

Claims 1-11, 15-19, 24, 26, 28, and 30-33 are allowed.

The following is an examiner's statement of reasons for allowance: As per claim 1, Strentzsch et al. was relied upon to disclose a gateway server, acting through internal DNS proxy, which satisfies requests and forwards DNS request according to an appropriate protocol, if it fails. A thorough review of the prior art fails to disclose the specific conditions of "receiving a resolved address at the native host name resolver of the requesting computer system corresponding to the host name data, wherein the resolving computer system forwards the host name data from the replacement host name resolver in the requesting computer system to a name server, and wherein receiving a resolved address at the native host name resolver of the requesting computer system corresponding to the host name data comprises receiving the resolved address directly from the name server bypassing the resolving computer system." Independent claims 24, 26, 31, and 33 recite similar limitations. Claims 2-11, 15-19, 28, 30, and 33 are allowed due to its dependency on claims 1 and 26 respectively. Examiner notes that claims 12-14, 20-23, 25, 27, and 29 are cancelled by the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
